

# YORK REGION

## IN SUPPORT OF 360°KIDS

### ABOUT 360°KIDS

360°kids now serves over 3,000 youth each year from every municipality in York Region and this number has grown significantly since our move to the Richmond Hill Hub and offering even more essential services to youth. The name 360°kids refers to the comprehensive approach that the organization takes to assisting at-risk youth and surrounding them with care, recognizing that these kids need a wide range of supports to help them rebuild their lives. This holistic approach is enshrined in our slogan: Surrounding kids in crisis with care.

### YOUR FUNDS AT WORK

The funds you raised have helped to create long-term housing for youth transitioning from homelessness. 10 two bedroom apartments have been sourced for youth to stay for a maximum of three years. The youth will receive ongoing support from 360°kids to help them stay in school, find a job and work through their challenges. The youth residences offer a combination of housing and support for youth, primarily 16-19 years of age, who are facing a housing crisis. Youth seeking this service may be unable to reside at home due to abuse, emotional neglect, family dysfunction, or educational difficulties.
